CAMPERS

EXPLORE FARTHER - EXPAND HORIZONS - EXPECT TRANQUILITY

THE ARKTO APEX

Go the distance with the Arkto Apex, a multi-functional travel trailer designed to push the boundaries of traditional camping and take you where you never thought possible.

The Apex has been constructed to maximize functionality and comfort, all with a compact and light weight composite exterior design. Best of all, the Apex has been built for remote off-road, backwoods and civilized camping, allowing you to explore nature the way it was intended!

The Apex is manufactured with off-road capabilities, including axle-less independent suspension, 21" ground clearance, aluminum under belly protection, and 32" all-terrain tires.

In addition to a very functional outdoor kitchen, the Apex also offers industry leading storage capacity for those looking to bring extra gear or the comforts of home on any adventure.

Base Price - \$42,500

Your Next Adventure Awaits!
